

CIC ASSET MANAGEMENT INC.

CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013

Auditors' Report

To the Members of the Legislative Assembly of Saskatchewan

We have audited the accompanying consolidated financial statements of **CIC Asset Management Inc.**, which comprise the consolidated statement of financial position as at December 31, 2013, and the consolidated statements of comprehensive (loss) income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform an audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of CIC Asset Management Inc. as at December 31, 2013, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

(See accompanying notes)

1. General information

CIC Asset Management Inc. ("AMI" or "the Corporation") is a corporation domiciled in Canada. The address of AMI's registered office and principal place of business is 400 - 2400 College Avenue, Regina, SK, S4P 1C8. AMI has a mandate to prudently manage and divest of its portfolio of investments. The consolidated financial statements of AMI comprise AMI and its subsidiaries and AMI's interest in associates and jointly controlled entities with principal activities as described in Note 4(a).

2. Basis of preparation

a) Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Accounting Standards (IFRS). The consolidated financial statements were authorized for issue by the Board of Directors on February 26, 2014.

b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for certain non-current assets and financial instruments, which are measured at fair value, as explained in the significant accounting policies set out in Note 4.

c) Functional and presentation currency

The consolidated financial statements are presented in Canadian Dollars, which is AMI's functional currency.

d) Use of estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

Significant items subject to estimates and assumptions include the carrying amounts of accounts receivable and investments, the accounting for special purpose entities, the fair value of financial instruments, provisions for environmental remediation liabilities, and disclosure of contingent liabilities. These significant areas are further described in Notes 8, 9, 10, 13 and 17.

e) Use of judgements

The preparation of financial statements in conformity with IFRS requires management to make judgements that affect the application of accounting policies. Significant items subject to judgement include the accounting policies listed in Note 4.

3. Application of revised accounting standards

The following new and amended accounting standards, effective for annual periods on or after January 1, 2013, have been applied in preparing these financial statements in accordance with the related transitional provisions:

IFRS 10, Consolidated Financial Statements and IAS 27, Separate Financial Statements

IFRS 10 and IAS 27 were issued by the IASB on May 12, 2011, and together replaced IAS 27, *Consolidated and Separate Financial Statements*.

IFRS 10 includes requirements related to consolidated financial statements. It builds on existing principles by establishing a single control model to assess whether an investee should be consolidated. The model focuses on exposure or rights to variability in returns versus the previous concept of benefits.

IAS 27 contains accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when the entity prepares separate financial statements.

The standards were applied retrospectively, effective January 1, 2013, with no material impact on the consolidated financial statements.

IFRS 11, Joint Arrangements

IFRS 11 was issued by the IASB on May 12, 2011, and will replace IAS 31, *Interests in Joint Ventures*. The standards are applied prospectively and effective for annual periods beginning on or after January 1, 2013.

IFRS 11 requires a party to a joint arrangement to determine the type of arrangement, either a joint operation or a joint venture, by assessing its rights and obligations arising from the arrangement. The option of using proportionate consolidation for jointly controlled entities has been eliminated under IFRS 11.

Under IAS 31, the Corporation classifies its investment in Foragen Technologies Limited Partnership (Foragen) as a jointly controlled entity and uses the equity method.

The Corporation has determined that upon adoption of IFRS 11, the investment in Foragen will meet the definition of a joint venture and will continue to be accounted for using the equity method.

IFRS 12, Disclosure of Interests in Other Entities

IFRS 12 was issued by the IASB on May 12, 2011. IFRS 12 is a comprehensive standard on disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates, special purpose vehicles and unconsolidated structured entities.

The standards were applied prospectively, effective January 1, 2013, with no material impact on the consolidated financial statements.

IFRS 13, Fair Value Measurement

IFRS 13 was issued by the IASB on May 12, 2011. IFRS 13 defines fair value, sets out a framework for measuring fair value, and introduces consistent requirements for disclosures on fair value measurements.

The standards were applied prospectively, effective January 1, 2013, with any new requirements included in Notes 8 and 17 to the consolidated financial statements.

Amendments to IAS 1, Presentation of Financial Statements

An amended version of IAS 1 was issued by the IASB on June 16, 2011. The amendments introduce changes to the presentation of items in other comprehensive income.

The amendments were applied retrospectively effective January 1, 2013. The presentation format of the consolidated statement of comprehensive income has been changed to comply with the new requirements.

3. Application of revised accounting standards (continued)

IAS 28, Investments in Associates and Joint Ventures

An amended version of IAS 28 was issued by the IASB on May 12, 2011, to incorporate accounting for joint ventures, because the equity method is now applicable to both joint ventures and associates. IAS 28 continues to prescribe the accounting for investments in associates, but is now the only source of guidance describing the application of the equity method. The amended IAS 28 will be applied by all entities that have an ownership interest with joint control of, or significant influence over, an investee.

The amendments were applied prospectively, effective January 1, 2013, with no material impact on the consolidated financial statements.

Amendments to IFRS 7, Disclosures

On December 16, 2011, the IASB issued amendments to IFRS 7 as part of its offsetting project. The amendments clarify certain items regarding offsetting financial assets and financial liabilities and also address common disclosure requirements.

The amendments were applied retrospectively, effective January 1, 2013, with no material impact on the consolidated financial statements.

4. Significant accounting policies

The accounting policies set out below have been applied consistently to all years presented in these consolidated financial statements. The accounting policies have been consistently applied by AMI's subsidiaries.

a) Basis of consolidation

Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which the Corporation has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefit from its activities, generally indicated by the Corporation holding more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Corporation controls another entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Identifiable assets acquired, liabilities, and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of any minority interest. The excess of the cost of acquisition over the fair value of the Corporation's share of the identifiable net assets acquired is recorded as goodwill.

These consolidated financial statements include the accounts of CIC Asset Management Inc. and its subsidiaries:

Wholly-owned subsidiaries domiciled in Canada

Principal Activity

101069101 Saskatchewan Ltd.	Inactive
CIC WLSVF Holdings Inc.	Investment Holding Corporation
CIC Foods Inc.	Inactive
CIC FTLF Holdings Inc.	Investment Holding Corporation
CIC FTMI Holdings Inc.	Investment Holding Corporation
CIC OSB Products Inc.	Inactive
CIC PVF Holdings Inc.	Inactive
CIC Pulp Ltd.	Inactive
Investment Saskatchewan Swine Inc.	Inactive
Invest Sask Holdings Inc.	Inactive

4. Significant accounting policies (continued)

a) Basis of consolidation (continued)

Associates and jointly controlled entities (investments in equity accounted investees)

Associates are those entities in which AMI has a significant influence, but not control, over strategic financial and operating policy decisions. Significant influence is presumed to exist when AMI holds between 20.0 and 50.0 per cent of the voting power of another entity. Jointly controlled entities are those entities over whose activities AMI has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions.

Associates and jointly controlled entities are accounted for using the equity method and are recognized initially at cost. AMI's investment includes any goodwill and intangible assets identified at acquisition, net of accumulated impairment losses. The consolidated financial statements include AMI's share of the total comprehensive income and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of AMI, from the date that significant influence or joint control commences until the date that significant influence or joint control ceases. When AMI's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest is reduced to Nil and the recognition of further losses is discontinued except to the extent that AMI has an obligation or has made payments on behalf of the investee.

Special purpose entities

AMI has established certain special purpose entities (SPEs) for trading and investment purposes. An SPE is consolidated if, based on an evaluation of the substance of its relationship with AMI and the SPE's risks and rewards, AMI concludes that it controls the SPE. SPEs controlled by AMI were established under terms that impose strict limitations on the decision-making powers of the SPE's management and that result in AMI receiving the majority of the benefits related to the SPE's operations and net assets, being exposed to risks incident to the SPE's activities, and retaining the majority of the residual or ownership risks related to the SPE or its assets.

AMI has determined that Meadow Lake Pulp Limited Partnership (MLPLP) falls under the classification of an SPE and has been consolidated in these financial statements.

Other equity investments

The Corporation holds a number of equity investments which are not joint ventures, and over which the Corporation is unable to exercise control or significant influence. These investments are recorded as fair value through profit or loss as outlined in Note 8.

Transactions eliminated on consolidation

Inter-group balances and transactions, and any unrealized income and expenses arising from inter-group transactions, are eliminated in preparing the consolidated financial statements. Unrealized gains arising from transactions with investments in equity accounted investees are eliminated against the investment to the extent of AMI's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

b) Cash and cash equivalents

Cash and cash equivalents include short-term investments that have a maturity date of ninety days or less.

c) Financial instruments

AMI classifies its financial instruments into one of the following categories: fair value through profit or loss; held-to-maturity; loans and receivables; available-for-sale; and other liabilities.

Financial assets and liabilities are not offset with the net amount reported on the consolidated statement of financial position unless there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

All financial instruments are measured at fair value on initial recognition. Transaction costs are included in the initial carrying amount of financial instruments except for financial instruments at fair value through profit or loss in which case the transaction costs are expensed as incurred. Measurement in subsequent years depends on the classification of the financial instrument.

4. Significant accounting policies (continued)

c) Financial instruments (continued)

Financial assets at fair value through profit or loss

A financial asset is classified at fair value through profit or loss if it is classified as held-for-trading or is designated as such upon initial recognition. Financial assets are designated at fair value through profit or loss if the Corporation manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Corporation's documented risk strategy. Upon initial recognition attributable transaction costs are recognized in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized through net earnings (loss), refer to Note 17.

Financial assets held-to-maturity

A financial asset is classified as held-to-maturity if it is designated as such upon initial recognition. Held-to-maturity financial assets have a fixed maturity date, where the Corporation intends and has the ability to hold to maturity. Held-to maturity investments after initial recognition are accounted for at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

Available-for-sale

A financial asset is classified as available-for-sale when it is designated as such or is not classified in any of the previous categories. Financial assets are designated in the available-for-sale category when their fair value cannot be estimated reliably; as such they are recorded at cost.

Non-derivative financial liabilities

The Corporation initially recognizes a financial liability on the date it is originated. All other financial liabilities, including liabilities designated at fair value through profit or loss, are recognized initially on the trade date at which the Corporation becomes a party to the contractual provisions of the instrument.

The Corporation derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

The Corporation does not net financial assets or liabilities for presentation in the consolidated statement of financial position.

Such financial liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

Embedded derivatives

Derivatives may be embedded in other host instruments and are treated as separate derivatives when their economic characteristics and risks are not clearly and closely related to those of the host instrument, when the embedded derivative has the same terms as those of a stand-alone derivative, and the combined contract is not held-for-trading or designated at fair value. These embedded derivatives are measured at fair value with subsequent changes recognized in net earnings (loss). AMI had no contracts with embedded derivatives at December 31, 2012 and December 31, 2013.

d) Impairments

Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset which can be estimated reliably.

4. Significant accounting policies (continued)

d) Impairments (continued)

Financial assets (continued)

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to AMI on terms that AMI would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, or the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against the asset. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through net earnings (loss).

Investments in equity accounted investees

The carrying amounts of investments in equity accounted investees are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the equity accounted investment's recoverable amount is estimated. The recoverable amount of an equity accounted investment is the greater of its value-in-use and its fair value less costs to sell. In assessing value-in-use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the equity accounted investment.

An impairment loss is recognized if the carrying amount of an equity accounted investment exceeds its estimated recoverable amount. Impairment losses are recognized in net earnings (loss).

Impairment losses recognized in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the equity accounted investment's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognized.

e) Provisions

A provision is recognized if, as a result of a past event, AMI has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation, the timing or amount of which is uncertain. Provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The unwinding of the discount on provisions is recognized in the consolidated statement of comprehensive income (loss).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Environmental remediation

A provision for environmental remediation is accrued when the occurrence of an environmental expenditure, related to present or past activities of AMI, is considered probable and the costs of remedial activities can be reasonably estimated. These estimates include costs for investigations and remediation at identified sites. These provisions are based on management's best estimate considering current environmental laws and regulations and are recorded at fair value. AMI reviews its estimates of future environmental expenditures on an ongoing basis.

4. Significant accounting policies (continued)

f) Revenue recognition

Revenues are recognized in the year the services are provided when there is clear proof that an arrangement exists, amounts are determinable and the ability to collect is reasonably assured.

Interest earned on investments is recognized on an accrual basis except where uncertainty exists as to ultimate collection. In cases where collectability of interest is not reasonably assured, interest is recorded when it is received and accrued interest receivable is offset by deferred interest.

Dividends are recorded as income when received or receivable for all investments in which the Corporation does not exercise significant influence.

g) Foreign currency transactions

Transactions in foreign currencies are translated to Canadian dollars at exchange rates at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Canadian dollars at the exchange rate at that date. Non-monetary assets and liabilities are translated using the exchange rates on the date of the transactions. Foreign currency differences arising on translation are recognized in net earnings (loss), except for differences arising on the translation of qualifying cash flow hedges, which are recognized in other comprehensive income.

The assets and liabilities of foreign operations are translated into Canadian dollars at the exchange rate on the reporting date. The revenue and expenses of foreign operations are translated to Canadian dollars using exchange rates on the dates of the transactions. Translation adjustments arising from changes in the exchange rate are reflected in other comprehensive income. When a foreign operation is disposed of the related accumulated translation adjustment is transferred to net earnings (loss) as part of the gain or loss on disposal.

h) Finance income and expenses

Finance income - as an investment company, the Corporation has chosen to record gains on sale of investments through net earnings (loss) in revenues, and changes in fair value of financial assets at fair value through profit or loss in net change in value of investments. Interest income is also recognized in net earnings (loss) using the effective interest method.

Finance expenses - changes in the fair value of financial assets at fair value through profit or loss are recorded to net change in value of investments.

On the consolidated statement of cash flows, interest and dividends received are classified as an operating activity, and dividends paid are classified as a financing activity.

i) New standards and interpretations not yet adopted

A number of new standards, and amendments to standards and interpretations, are not yet effective for the year ended December 31, 2013, and have not been applied in preparing these consolidated financial statements. In particular, the following new and amended standards which become effective for years beginning on or after January 1, 2014 are:

Amendments to IAS 32, *Offsetting Financial Assets and Financial Liabilities*

On December 16, 2011, the IASB issued amendments to IAS 32 as part of its offsetting project. The amendments are to be applied retrospectively and will be effective for annual period beginning on or after January 1, 2014. The amendments clarify certain items regarding offsetting financial assets and financial liabilities. The Corporation has determined that adoption of the amendments will have no material impact on the consolidated financial statements.

4. Significant accounting policies (continued)

i) New standards and interpretations not yet adopted (continued)

IFRS 9, Financial Instruments

IFRS 9 was issued by the IASB on November 12, 2009 and will replace International Accounting Standard (IAS) 39, *Financial Instruments: Recognition and Measurement*. The standards are to be applied prospectively. The IASB has deferred finalization of IFRS 9 indefinitely, and therefore, an effective date is not known at this time.

IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. Under IFRS 9, financial assets will generally be measured initially at fair value plus particular transaction costs, and subsequently at either amortized cost or fair value. In October 2010, the IASB issued additions to IFRS 9 relating to accounting for financial liabilities. Under the new requirements, an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity's credit risk in other comprehensive income, rather than within net earnings. The Corporation is reviewing the standard to determine the potential impact, if any, on the consolidated financial statements.

IAS 36, Impairment of Assets – Recoverable Amounts Disclosures for Non-Financial Assets

In May 2013, the IASB issued limited scope amendments to IAS 36. The amendment clarified the requirement to disclose the recoverable amount of an asset (including goodwill) or a cash-generating unit for which a material impairment loss was recognized or reversed during the reporting period. In addition, the amendment requires an entity to disclose the discount rate used in a present value technique that has been used in determining the recoverable amount of an impaired asset on the basis of fair value less costs of disposal. These amendments are effective for annual periods beginning on or after January 1, 2014. Earlier application is permitted. The Corporation does not expect these amendments to have a material impact on the consolidated financial statements.

Annual Improvement Cycles

In 2012, the IASB issued two exposure drafts for Annual Improvements Cycles 2010 - 2012 and 2011 - 2013, which include minor amendments to a number of IFRS. The annual improvements process is used to make necessary but non-urgent changes to IFRS that are not included in other projects. The amendments issued are all effective for annual periods beginning January 1, 2014. The Corporation is in the process of assessing the impact of the amendments.

5. Status of CIC Asset Management Inc.

The Corporation was incorporated under *The Business Corporations Act (Saskatchewan)* on November 14, 1979 as a wholly-owned subsidiary of CIC, a provincial Crown corporation. The Corporation is an agent of Her Majesty in Right of the Province of Saskatchewan and is not subject to federal and provincial income taxes. Certain of the Corporation's investments are subject to federal and provincial income taxes.

6. Cash and cash equivalents
(thousands of dollars)

The major components of cash and cash equivalents are as follows:

	2013	2012
Cash on deposit	\$ 3,046	\$ 4,315
Short-term investments	<u>45,999</u>	<u>73,114</u>
	<u>\$ 49,045</u>	<u>\$ 77,429</u>

The weighted average interest rate for short-term investments included in cash and cash equivalents at December 31, 2013 was 1.12 per cent (2012 - 1.12 per cent).

7. Restricted cash and cash equivalents
(thousands of dollars)

AMI holds the following cash and cash equivalents restricted for use:

	2013		2012	
	Current	Non-Current	Current	Non-Current
Meadow Lake Pulp Limited Partnership (a)	\$ <u>483</u>	\$ <u>4,823</u>	\$ <u>7,680</u>	\$ <u>4,872</u>

- a) The current portion of restricted cash is held by the receiver of Meadow Lake Pulp Limited Partnership which is subject to an order of the Court of Queen's Bench of Saskatchewan. During the year, the receiver released \$7.2 million of the funds to the Corporation. The non-current portion of restricted cash had been paid to the Corporation, and was then placed in trust for the future remediation and monitoring costs associated with Meadow Lake Pulp Limited Partnership site, subject to the order of the Court of Queen's Bench of Saskatchewan. During the year, \$49.0 thousand (2012 - \$28.0 thousand) was incurred for monitoring costs, as provided for under the court order.

8. Investments
(thousands of dollars)

	Note	2013	2012
Short-term investments - at fair value through profit or loss		\$ <u>45,183</u>	\$ <u>88,186</u>

		<u>4,432</u>	<u>12,361</u>
Total investments		<u>\$ 58,123</u>	<u>\$ 21,779</u>

8. Investments (continued)

- (a) On December 20, 2013, the Corporation sold its investment in Prairie Ventures Limited Partnership with a book value of \$2.6 million for total proceeds of \$1.9 million. The Corporation recorded a \$0.7 million loss on the sale. As part of the sales transaction, the Corporation also recorded a gain on the disposal of the non-controlling interest of \$2.5 million. The Corporation's investment in BlackPearl Resources Inc., Just Energy Group Inc., Pengrowth Energy Corp., PetroBakken Energy Ltd., and Zargon Oil & Gas Ltd. were investments held within Prairie Ventures Limited Partnership and were therefore sold as part of the sales agreement.
- (b) The Corporation holds bonds with various Canadian Chartered Banks with rates varying between 2.22 per cent and 2.37 per cent. The bonds have maturity dates between September 21, 2017 and March 12, 2018.
- (c) In 2013, the Corporation consented to the sale of Terra Grain Fuels Inc. (Terra Grain), by its parent company, to its senior debt holders. The Corporation, as part of the sales transaction, agreed to an extension of its forbearance agreement on its subordinated debt to January 31, 2016, at which time monthly interest payments are scheduled to resume. The Corporation has declined any further participation in funding of Terra Grain. As a result of the transaction and the uncertainty of further payments from Terra Grain, the Corporation has taken a \$9.0 million allowance against its loan to Terra Grain reducing its carrying value to Nil.
- (d) In 2011, Clothing For Modern Times Ltd. (CFMT) entered receivership and was granted creditor protection under the *Companies' Creditors Arrangement Act* (CCAA). Based on a proposal before the receiver at December 31, 2011, the Corporation recorded impairment on the CFMT debt of \$1.0 million.

On March 22, 2012, as part of the CCAA process, the Corporation was assigned a loan in 2313329 Ontario Ltd. (2313329), a company related to CFMT which purchased a number of CFMT's stores during the CCAA process. The loan's face value was \$3.5 million, accruing interest at 5.0 per cent, with all interest and principal due March 21, 2013. AMI considers the assignment of the loan to comprise an exchange of a portion of the Corporation's original loan to CFMT for the loan receivable from 2313329. On March 22, 2012, the Corporation recorded the loan to 2313329 at its estimated fair value of \$2.6 million, according to the effective interest rate method. No gain or loss was recorded upon the assignment of the 2313329 loan, as ultimate recoverable proceeds on the original CFMT loan balance remained uncertain.

On May 18, 2012, the court order facilitating restructuring under CCAA expired, and on June 6, 2012, CFMT filed an assignment in bankruptcy. The receiver estimated CFMT had adequate estimated residual assets to return \$5.1 million to AMI as a final distribution on the original CFMT loan. As the total proceeds available to AMI were contingent on the receiver's ability to liquidate the remaining non cash assets of CFMT at the estimated amount, AMI considered the fair value of the amount due from the receiver to be \$4.6 million. Including the anticipated proceeds from receivership with the assignment of 2313329's loan resulted in a fair value of \$6.7 million.

As the terms of the loan to 2313329 and the residual assets of CFMT represented materially different terms and cash flows than the initial loan to CFMT, the loan to CFMT was derecognized and two separate financial instruments recognized. The loan to 2313329 was recorded at its estimated fair value at March 22, 2012 of \$2.6 million, reflecting an estimated effective interest rate of 40.0 per cent. The residual proceeds due from the receiver were recorded as accounts receivable with a fair value at June 6, 2012 of \$4.6 million. Upon the recognition of these financial instruments, the original CFMT loan was derecognized resulting in a \$0.5 million recovery of previous impairments.

AMI received \$4.3 million in proceeds related to the \$4.6 million of CFMT residual assets initially recognized, with the remaining \$0.3 million written off as uncollectable at December 31, 2012.

- (e) As detailed in Note 8(d) the Corporation was assigned a loan in 2313329 Ontario Ltd. with an estimated fair value at initial recognition of \$2.6 million under the effective interest method at March 22, 2012. The Corporation recorded an impairment of the loan at December 31, 2012 of \$0.6 million based on impairment testing.

The Corporation performed an impairment test of the loan at December 31, 2013 and determined a further impairment had occurred due to increased risk associated with collecting the principal upon maturity. Based on the application of accounting standards for the impairment testing of loans and receivables, the Corporation recognized an impairment of \$0.5 million at December 31, 2013.

9. Investments in equity accounted investees
(thousands of dollars)

	Principal activity	Reporting date	Ownership interest		Carrying value	
			2013	2012	2013	2012

Foragen Technologies Limited Partnership (f)	Agricultural venture capital	December 31	33.3%	33.3%	5,545	5,449
					\$ 5,545	\$ 45,430

- a) On April 1, 2013 the Corporation sold its interest in Bioriginal Food and Science Corporation (Bioriginal) for proceeds of \$7.7 million recording a gain on sale of \$1.8 million. For the year ended December 31, 2013, the Corporation recorded equity earnings of \$0.6 million (2012 - \$1.8 million) based on its ownership interest in Bioriginal to the date of sale.
- b) On December 20, 2013 the Corporation sold its interest in Jump.ca Wireless Supply Corp. (Jump.ca) for proceeds of \$7.2 million recording a loss on sale of \$3.3 million. For the year ended December 31, 2013, the Corporation recorded equity earnings of \$0.1 million (2012 - \$1.1 million) based on its ownership interest in Jump.ca to the date of sale.
- c) On November 7, 2013, the Corporation, through its wholly-owned subsidiary CIC OSB Products Inc. (CIC OSB), sold its ownership interest in Meadow Lake OSB Limited Partnership (ML OSB) for net proceeds of \$30.0 million recording a gain on sale of \$8.9 million. Before the date of sale, the Corporation received, through CIC OSB, \$5.0 million in dividends from ML OSB. For the year ended December 31, 2013, the Corporation recorded equity earnings of \$3.9 million (2012 - \$1.4 million) based on its ownership interest in ML OSB to the date of sale.
- d) On March 22, 2013, the Corporation converted in equity in VendAsta Technologies Inc. (VendAsta) to senior debt. The debt has a contractual value of \$4,250,000 plus interest at prime plus one per cent and matures on December 31, 2015.
- e) The Corporation has discontinued recognition of its losses or income of various associates as their total equity value is below Nil. During the year, these associates had net income totaling \$0.9 million (2012 - loss of \$3.3 million). Cumulative losses of \$5.2 million remain at December 31, 2013.
- f) The Corporation, through its wholly owned subsidiary CIC FLTP Holdings Inc., owns limited partnership units in Foragen Technologies Limited Partnership (Foragen). This joint venture contributed equity earnings of \$0.3 million (2012 - \$2.9 million) to the Corporation's financial results. During the year, the Corporation received cash distributions of \$0.2 million (2012 - \$5.2 million) as a return of capital from Foragen.

9. Investments in equity accounted investees (continued)

The Corporation's share of income from its equity accounted investees for the year was \$4.7 million (2012 - \$6.9 million). The Corporation's equity accounted investees are as follows:

- Bioriginal Food and Science Corp.
- Can Pro Ingredients Ltd.
- Corporation HET
- Jump.ca Wireless Supply Corp.
- Meadow Lake OSB Limited Partnership
- Solido Design Automation Inc.
- VendAsta Technologies Inc.
- Western Life Sciences Venture Fund Limited Partnership
- Foragen Technologies Limited Partnership (Joint Venture)

Summarized financial information for equity accounted investees, not adjusted for the percentage ownership held by the Corporation is detailed as follows:

	Current Assets	Non-Current Assets	Current Liabilities	Non-Current Liabilities	Revenues	Expenses	Net Earnings
December 31, 2012	\$ 68,648	\$ 183,650	\$ 61,394	\$ 20,917	\$ 368,685	\$ 353,272	\$ 15,413

Increase in provisions	598
Reduction of provisions	(49)
Settlement of provisions	-
Recovery on settlement	-
Balance at December 31, 2013	<u>\$ 64,315</u>

a) Environmental remediation

The following are included in the provision for environmental remediation liabilities:

- i) The Corporation is committed to undertake necessary environmental clean-up activities on certain properties. The Corporation has accrued \$10.5 million (2012 - \$10.4 million) to carry out clean-up activities and associated costs related to an indemnity provided by Prince Albert Pulp Company Ltd. (PAPCO) and Her Majesty in Right of the Province of Saskatchewan for environmental liabilities predating 1986 related to the Prince Albert pulp mill site. The Corporation is a successor corporation to PAPCO and therefore has recorded the estimated cost of its assumed obligations related to the PAPCO site. The increase in the liability of \$0.1 million is due to third party engineers' assessment of costs to remediate. The timing to complete this remediation is indeterminable at this time.

10. Provisions (continued)

a) Environmental remediation (continued)

- ii) The Corporation has accrued \$53.5 million (2012 - \$53.0 million) to carry out the clean-up activities related to an indemnity provided by PAPCO and Her Majesty in Right of the Province of Saskatchewan for environmental liabilities predating 1986 relating to the ERCO Worldwide chemical plant. The increase in the liability of \$0.5 million is due to third party engineers' assessment of costs to remediate. The timing to complete this remediation is indeterminable at this time.
- iii) The Corporation has recorded \$0.3 million (2012 - \$0.4 million) for estimated groundwater monitoring and health risk assessment costs related to an obligation of Meadow Lake Pulp Limited Partnership as a result of the sale of its assets. These funds are held in trust according to court order, and are to be applied against continued site monitoring expenses through to January 2017, at which time residual amounts may be utilized to conduct a human health and ecological assessment according to the landfill closure plan prepared for the site by environmental consultants. During the year, \$49.0 thousand (2012 - \$28.0 thousand) was incurred for monitoring costs.

11. Share capital and capital disclosures
(thousands of dollars)

As a wholly-owned subsidiary of CIC, the Corporation's share capital currently consists of funds invested by CIC in the amount of \$35.0 million (2012 - \$80.0 million). The capital structure is determined in conjunction with the shareholder based on the approved business plan.

The Corporation's objectives when managing capital are to ensure adequate capital to support the operations of the Corporation, and to ensure adequate returns to the shareholder.

The Corporation has adequate cash and short-term investments on hand to meet its obligations.

	2013	2012
Authorized:		
Unlimited common shares with no par value		
Issued and outstanding:		
(2013 - 3,499,983 common shares)		
(2012 - 7,999,983 common shares)	\$ 80,000	\$ 80,000
Shares redeemed during year:		
2013 - 4,500,000 common shares (2012 - Nil)	<u>(45,000)</u>	<u>-</u>
Cost at end of year	<u>\$ 35,000</u>	<u>\$ 80,000</u>

12. Accumulated other comprehensive loss
(thousands of dollars)

	2013	2012
Unrealized foreign currency translation losses	\$ -	\$ (477)

On April 1, 2013 the Corporation sold its interest in Bioriginal. On the date of sale, the Corporation reversed its unrealized foreign currency translation losses against the gain on sale of Bioriginal.

13. Commitments and contingencies

The following significant commitments and contingencies exist at December 31, 2013:

- a) In the normal course of business, the Corporation became involved in claims and litigation. While the final outcome with respect to claims and litigation pending at December 31, 2013 cannot be predicted with certainty, it is the opinion of management that resolution of these matters will not have a material adverse effect on the Corporation's financial position or results of operations. The Corporation will therefore account for these matters in the year of resolution.
- b) The Corporation has entered into an investment management agreement with a third party investment manager. Under the terms of this agreement, the investment manager may be entitled to performance fees on gains realized upon the disposition of certain investments.
- c) Included in long term restricted cash is \$4.5 million which has been placed in trust under order of the Court of Queen's Bench of Saskatchewan, related to potential environmental remediation of a landfill site previously operated by Meadow Lake Pulp Limited Partnership. The \$4.5 million is the estimate of the costs which may be required to remediate the site, as determined by third party experts. The Corporation's obligation to incur these costs is contingent on the findings from ongoing groundwater monitoring at the location, which is expected to continue until 2017; at which time the Corporation will either incur the remediation costs, or the funds will be released from trust if results from groundwater monitoring indicate further remediation is not required. Due to uncertainty regarding the future findings of groundwater monitoring, the \$4.5 million held in trust has not been included as a liability in these financial statements.

14. Items not affecting cash from operations
(thousands of dollars)

	2013	2012
Share of earnings from equity investments	\$ (4,749)	\$ (6,865)
Dividends from equity accounted investees	5,196	-

Non-controlling interest	(656)	(646)
Working capital balances related to investments	(1,394)	(30)
Other non-cash items	<u>(260)</u>	<u>(26)</u>
	\$ 2,133	\$ 8,061

15. Net change in non-cash working capital balances related to operations
(thousands of dollars)

	2013	2012
Increase in interest and dividends receivable	\$ (451)	\$ (309)
Decrease in accounts receivable	328	428
Decrease in trade and other payables	<u>(2,065)</u>	<u>(142)</u>
	\$ (2,188)	\$ (23)

16. Related party transactions

Included in these consolidated financial statements are transactions with various Saskatchewan Crown corporations, ministries, agencies, boards and commissions related to AMI by virtue of common control by the Government of Saskatchewan and non-Crown corporations and enterprises subject to joint control and significant influence by the Government of Saskatchewan (collectively referred to as related parties). AMI has elected to take a partial exemption under IAS 24 - *Related Party Disclosures* which allows government related entities to limit the extent of disclosures about related party transactions with government or other government related entities.

Routine operating transactions with related parties are settled at prevailing market prices under normal trade terms.

CIC provides management services to the Corporation without charge. The Corporation estimates \$150.0 thousand (2012 - \$150.0 thousand) of CIC's senior management time is expended on the Corporation.

17. Financial instruments and financial risk management (thousands of dollars)

Financial instruments

Fair values are approximate amounts at which financial instruments could be exchanged between willing parties based on current markets for instruments with similar characteristics, such as risk, principal and remaining maturities. Fair values are estimates using present value and other valuation techniques which are significantly affected by the assumptions used concerning the amount and timing of estimated future cash flows and discount rates that reflect varying degrees of risk. Therefore, due to the use of judgement and future-oriented information, aggregate fair value amounts should not be interpreted as being realizable in an immediate settlement of the instruments.

The classification of the Corporation's financial instruments is as follows:

Financial Instruments	Classification (i)	2013		2012	
		Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets					
Cash and cash equivalents	FVTPL	\$49,045	\$49,045	\$ 77,429	\$ 77,429
Short-term investments	FVTPL	45,183	45,183	88,186	88,186
Interest and dividends receivable	LAR	1,194	1,194	743	743
Accounts receivable	LAR	-	-	328	328
Restricted cash and cash equivalents	FVTPL	5,306	5,306	12,552	12,552
Investments - fair value	FVTPL	-	-	9,418	9,418
Investments - held to maturity	HTM	53,691	53,691	-	-
Investments - loans and other advances	LAR	4,432	(ii)	12,361	(ii)
Financial Liabilities					
Trade and other payables	OL	150	150	2,215	2,215

i) Classification details are:

FVTPL - fair value through profit or loss
HTM - held to maturity
LAR - loans and receivables
OL - other liabilities

ii) The uncertainty and potentially broad range of fair values for Investments - loans and other advances, renders the disclosure of a fair value with appropriate reliability impractical. Loans are reviewed for indications of impairment annually as detailed in Note 4(d).

17. Financial instruments and financial risk management (continued)
(thousands of dollars)

a) Fair value hierarchy

Fair value measurements are categorized into levels within a fair value hierarchy based on the nature of inputs used in the valuation.

Level 1 - Quoted prices are readily available from an active market.

Level 2 - Inputs, other than quoted prices included in level 1 that are observable either directly or indirectly.

Level 3 - Inputs are not based on observable market data.

AMI's financial instruments are categorized within this hierarchy as follows:

	2013				Total
	Level 1	Level 2	Level 3		
Cash and cash equivalents	\$ 49,045	\$ -	\$ -	\$ -	\$ 49,045
Short-term investments	45,183	-	-	-	45,183
Restricted cash and cash equivalents	5,306	-	-	-	5,306
Investments - held to maturity	-	53,691	-	-	53,691
Investments - fair value	-	-	-	-	-

	2012				Total
	Level 1	Level 2	Level 3		
Cash and cash equivalents	\$ 77,429	\$ -	\$ -	\$ -	\$ 77,429
Short-term investments	88,186	-	-	-	88,186
Restricted cash	12,552	-	-	-	12,552
Investments - fair value	1,561	-	7,857	-	9,418

Changes in Level 3 investments carried at fair value are as follows:

	2013	2012
Balance, beginning of year	\$ 7,857	\$ 18,282
Purchases of investments	-	-
Proceeds on sale of investments	(3,003)	(5,878)
Realized gain on sale of investments	-	188
Realized losses on sale of investments	(686)	(673)
Unrealized losses attributable to assets held during the year included in net earnings (loss)	<u>(4,168)</u>	<u>(4,062)</u>
Balance, end of year	<u>\$ -</u>	<u>\$ 7,857</u>

i) Financial instruments categorized as level 3

In estimating fair value for equity investments designated as fair value through profit or loss (FVTPL), the Corporation places priority on observable market information for the particular security when such information is available, namely the security's closing price on the listing exchange. The fair values of unlisted securities are established according to the requirements of IAS 39 - *Financial Instruments: Recognition and Measurement*. In applying IAS 39, the Corporation considers the guidance provided by the International Private Equity and Venture Capital (IPEV) guidelines, as well as the Canadian Institute of Chartered Business Valuators (CICBV), within the constraints of IAS 39.

Where evidence of a recent, arm's length transaction has occurred in the shares of an unlisted equity position held by the Corporation, the Corporation considers such a transaction to generally provide a good indication of fair value. Where a recent, arm's length transaction has not occurred, or secondary indicators exist which would question the applicability of a recent transaction, the Corporation considers alternative valuation methodologies permitted under IAS 39. These methods are primarily focused on the projected earnings or cash flows of the business, discounted to present value by applying a discount rate which appropriately reflects industry and company specific risk factors.

17. Financial instruments and financial risk management (continued)

i) Financial instruments categorized as level 3 (continued)

Determining fair value for the Corporation's equity investments which are not publicly traded and recorded at fair value through profit or loss requires application of professional judgement and use of estimates. Significant estimates utilized by the Corporation include the timing and amount of future cash flows, anticipated economic outlook for the investee's industry, impact of pending or potential regulation or legislation, forecast consumer tastes, emergence of substitute products, anticipated fluctuations in commodities prices, and macroeconomic demand.

Significant aspects of professional judgement include selecting an appropriate valuation approach, determining a range of appropriate risk adjusted rates of return for a series of cash flows, and assessing the risk inherent in cash flows, the probabilities of micro and macroeconomic variables occurring, and probabilities of potentially significant company, industry, or economic factors occurring or failing to occur as the case may be.

In circumstances where fair value cannot be estimated reliably, the investment is reported at the carrying value at the previous reporting date unless there is evidence that the investment has since been impaired. All recorded values of investments are reviewed at each reporting date for any indication of impairment and adjusted accordingly.

Other financial assets and liabilities

Other financial assets and liabilities including interest and dividends receivable, accounts receivable and trade and other payables have not been classified in the fair value hierarchy given that carrying value approximates fair value due to immediate or short-term maturity.

Financial risk management

a) Market risk

AMI is exposed to market risk (equity prices and interest rates), credit risk and liquidity risks. AMI mitigates the risk through Board-approved policies, limits on use and amount of exposure, internal monitoring, and compliance reporting to senior management and the Board.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing return. The Corporation manages the following market risks:

Equity price risk

Equity price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in a market or market segment. The Corporation mainly invests in private companies, which may result in greater industry concentration and a limited number of companies. These companies may also be impacted directly or indirectly by changes in equity price risk.

All venture investments held by the Corporation present a risk of loss of capital due to business failures; however, the values of publicly traded venture investments are directly linked to movements in the stock market. The private venture investments are also indirectly linked to the general market trends to the extent that poor market conditions may place downward pressure on valuations of the Corporation's holdings due to reduced levels of activity in the initial public offering and merger and acquisition markets. The maximum risk resulting from financial instruments is equivalent to their fair value. The fair value of these equities at December 31, 2013 was Nil (2012 - \$9.4 million).

AMI's equity price risk has been assessed relative to the Toronto Stock Exchange (TSX) and the TSX Venture Exchange (TSX-V), which are considered by management to reflect the broad market factors impacting the Corporation's equity investments classified as FVTPL. Based on this assessment, AMI anticipates that a 10 per cent change in the average of the TSX and TSX-V indices would result in a Nil per cent (2012 - 11.6 per cent) change in the fair value of the Corporation's equity investments classified as FVTPL.

17. Financial instruments and financial risk management (continued)

Interest rate risk

AMI is exposed to changes in interest rates in its cash and cash equivalents, fixed income investments, including short-term investments and restricted cash and cash equivalents. Based on year end balances, It is estimated that a 100 basis point increase or decrease in interest rates would decrease or increase annual profit or loss by \$1.0 million at December 31, 2013 (2012 - \$1.8 million)

b) Credit risk

Credit risk is the risk that one party to a transaction will fail to discharge an obligation and cause the other party to incur a financial loss. Concentration of credit risk relates to groups of customers or counterparties that have similar economic or industry characteristics that cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. AMI maintains credit policies and limits in respect to short-term investments.

The carrying amount of financial assets represents the maximum credit exposure as follows:

	2013		2012
Cash and cash equivalents	\$ 49,045	\$	77,429
Short-term investments	45,183		88,186
Interest and dividends receivable	1,194		743
Accounts receivable	-		328
Restricted cash and cash equivalents	5,306		12,552
Investments - fair value through profit or loss	-		9,418
Investments - held to maturity	53,691		-
Investments - loans and other advances	<u>4,432</u>		<u>12,361</u>
	<u>\$ 158,851</u>	\$	<u>201,017</u>

The allowance for doubtful accounts, which provides an indication of potential impairment losses, is reviewed quarterly based on an analysis of the aging of accounts receivable and an estimate of outstanding amounts that are considered to be uncollectible. Historically, AMI has not written-off a significant portion of its accounts receivable balances.

The aging of accounts receivable are detailed as follows:

Accounts receivable	2013		2012
Current	\$ -	\$	112
30-59 Days	-		-
60-89 Days	-		-
Greater than 90 Days	<u>-</u>		<u>216</u>
Gross accounts receivable	-		328
Allowance for doubtful accounts	<u>-</u>		<u>-</u>
Net accounts receivable	<u>\$ -</u>	\$	<u>328</u>

c) Liquidity risk

Liquidity risk is the risk that AMI is unable to meet its financial commitments as they become due. AMI is a subsidiary of CIC and as such has access to capital markets through the Saskatchewan Ministry of Finance. AMI, through its diversified holdings and capital allocation, can allocate resources to ensure that all financial commitments made are met.

Where necessary AMI can borrow funds from CIC, adjust dividend rates, or be provided with equity injections to solve any liquidity issues.

AMI's only contractual obligations are trade and other payables. All trade and other payables are due in 2014.
