

Introduction

Issue Date: February 4, 2016

Per *The Crown Corporations Act, 1993*, Crown Investments Corporation (CIC) provides strategic direction, and monitors and evaluates the performance of subsidiary Crown corporations. CIC has developed policies intended to help the corporation clarify and communicate important aspects of business performance expectations. CIC's policies are designed to provide guidance to Crown sector managers engaged in overseeing Crown corporation business planning, business development and operations.

The policy manual consolidates all CIC policies pertaining to CIC subsidiary Crown corporations into one central publication. For ease of use, the Subsidiary Crown Policy Manual presents policies alphabetically along with a brief description of each in the Table of Contents.

As administrator of the policy manual CIC will, from time to time, revise or delete existing policies and introduce new policies approved by the CIC Board and Cabinet. CIC will notify the Crown CEO's, CFO's, and Senior Communications officials of any changes to the policies.

It is the responsibility of the Crown subsidiary policy manual users to refer to the current versions of CIC policies posted on the CIC website for up-to-date guidance on Crown sector policy matters.

For questions pertaining to the policy manual, please contact:
