

The Crown Energy Security Division plans and supports the energy transition for Saskatchewan's Crown sector. The Division facilitates mid-to-long term policy and planning for electricity, natural gas and nuclear energy, manages federal-provincial-territorial Crown-related energy matters, engages with industrial and business interests, and advances economic opportunities associated with the energy transition in the province. The Division:

- *leads energy projects that are multi-agency and transformative;*
- *conducts energy sector economic, modelling, and policy analysis, and;*
- *coordinates policy and planning for nuclear energy.*

Nuclear Business Analyst

Reporting to the Director of Nuclear, this position works with a high level of independence and as part of a team advising how provincial policy on nuclear energy will spur economic growth, attract investment, expand and create value chains, and build on provincial strengths in industry, research, and trade. This position offers an opportunity for meaningful and challenging work in an encouraging and dynamic environment that promotes trust, excellence, leadership, and teamwork.

This position will:

- Conduct complex strategic, public policy, financial, risk management, and economic analysis for the CIC Board and Cabinet on nuclear economic growth and business initiatives.
- Forecast, calculate, analyze, or synthesize data, and communicate potential implications for provincial public policy, economic growth, or nuclear energy systems planning.
- Stay well informed of nuclear energy trends, issues, and developments in Saskatchewan, Canada, and internationally.
- Work closely with Crown corporations, government ministries, the private sector, other governments, and other interested parties to coordinate and facilitate strategic collaboration, stay current with technological, economic and policy pressures and ideas, to provide CIC with timely, concise, independent, and accurate advice.
- Provide regular reporting to Crown Boards and Cabinet on provincial nuclear oversight and governance, workforce development, supply chain development, investment attraction, and federal-provincial-territorial relations and regulations.
- Develop a variety of written materials including strategic planning documents, analytical advice, decision and information items, briefing notes, and letters, considering alignment with government priorities and industry and business relationships and objectives.
- Represent CIC at meetings, conferences, trade and industrial events, gatherings of delegates, and in regular dialogue with Crown corporations, ministries, business interests and other stakeholders.

To be successful in this position you will maintain effective working relationships with all CIC units/divisions and stakeholders, including key individuals within the Crown corporations and Executive Government, to ensure effective communication and the best possible analysis and advice.

Qualifications and skills requirements include:

- Preferably a graduate degree or professional designation in public policy, economics, business, finance, social sciences, humanities, or engineering, with experience working in a strategic advisor role. An equivalent combination of education and experience will be considered.
- Strong understanding of energy economics, investment decision making, risk management, public policy, international relations and trade.
- Ability to think strategically to consider various scenarios and develop independent analysis and advice.
- Strong interpersonal, organizational, and management skills with the ability to prioritize work to meet strict deadlines.
- Strong skills in collaboration, influencing, analysis, synthesis, problem solving, writing, and presenting.
- Ability to work collaboratively, build relationships, and value the perspectives of others.
- Strong computer skills and familiarity with the Microsoft Office suite, including comfort with basic data and financials.
- Experience or knowledge of the public sector in Saskatchewan is an asset.
- Experience in the nuclear sector is not a requirement but is considered an asset.

The successful candidate shall be subject to an Employment Screening Check as a condition of employment.
