

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**FINANCIAL STATEMENTS**

**March 31, 2020**

## **Independent Auditor's Report**

To the Members of the Legislative Assembly of Saskatchewan

### *Opinion*

We have audited the financial statements of Saskatchewan Immigrant Investor Fund Inc. (the Fund), which comprise the statement of financial position as at March 31, 2020, the statement of comprehensive income (loss), statement of changes in deficit and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects the financial position of the Fund as at March 31, 2020, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

### *Basis for opinion*

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Responsibilities of Management and Those Charged with Governance for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

### *Auditors' Responsibility for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## **Independent Auditor's Report** (continued)

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.

## NOTES TO FINANCIAL STATEMENTS

March 31, 2020

### 1. General information

Saskatchewan Immigrant Investor Fund Inc. (the Corporation) is a corporation domiciled in Canada. The address of the Corporation's registered office and principal place of business is 830 - 410 22<sup>nd</sup> Street East, Saskatoon, SK, S7K 5T6.

The Corporation was established on October 6, 2010 under *The Business Corporations Act*. The Corporation is a wholly-owned subsidiary of Crown Investments Corporation of Saskatchewan (CIC), a Saskatchewan provincial Crown corporation. Accordingly, the accounts of the Corporation are consolidated in the annual financial statements of CIC.

The Corporation was established to participate in the Government of Canada's Immigrant Investor Program (IIP). The Corporation uses IIP funds to deliver the Government of Saskatchewan's Headstart on a Home program that assists builders and developers in building affordable housing. Federal legislation to terminate the IIP has been enacted and the Corporation will cease operations under this program after the final allocation of IIP funds is repaid on May 31, 2024.

Due to the Corporation's ownership structure, it is not subject to provincial or federal income tax.

### 2. Basis of preparation

#### a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The financial statements were authorized for issue by the Board of Directors on May 20, 2020.

#### b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for cash, which is classified as financial assets at fair value through profit or loss (FVTPL).

#### c) Functional and presentation currency

The financial statements are presented in Canadian dollars, which is the Corporation's functional currency.

#### d) Use of estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**2. Basis of preparation** (continued)

**d) Use of estimates** (continued)

Significant items subject to estimates and assumptions include the effective interest rate used to determine the fair value upon initial recognition, carrying amount and fair value of debt obligations (Notes 6 and 11), the fair value of loans receivable (Notes 3 and 11), and the forward-looking information and assumptions about the probability of default and expected loss rates used in the determination of the allowance for credit losses (Note 5).

**f) Use of judgements**

The preparation of financial statements in conformity with IFRS requires management to make judgements that affect the application of accounting policies. Significant items subject to judgement are included in the accounting policies listed in Note 3.

**3. Summary of significant accounting policies**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements:

**a) Cash**

Cash includes cash on deposit at financial institutions and is restricted for use under the IIP.

**b) Financial instruments**

**Financial assets**

At initial recognition, all financial assets are recorded at fair value on the Statement of Financial Position. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

After initial recognition, financial assets are classified as measured at fair value through other comprehensive income, at amortized cost, or at FVTPL. The classification is based on the business model used to manage the financial assets and the contractual cash flow characteristics of the assets.

The Corporation classifies cash as financial assets at FVTPL. Financial assets at FVTPL are subsequently measured at fair value with changes in fair value recognized in profit or loss. Interest receivable and loans receivable are classified as amortized cost and are subsequently measured at amortized cost using the effective interest method, less any provision for impairment losses.

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**3. Summary of significant accounting policies (continued)**

**b) Financial instruments (continued)**

**Financial assets (continued)**

Where the terms of a financial asset are renegotiated or the contractual cash flows are otherwise modified, the Corporation assesses whether the new terms are substantially different than the original terms. If the terms are substantially different, the Corporation derecognizes the original financial asset and recognizes a new financial asset at fair value. The date of modification is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. Differences in the carrying amount are recognized in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the modification does not result in derecognition, and the Corporation recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate.

**Financial liabilities**

The Corporation classifies trade and other payables and debt obligations as other liabilities. Other liabilities are non-derivative financial liabilities that are not designated as FVTPL. Subsequent to initial recognition, other liabilities are accounted for at amortized cost using the effective interest method.

**Determination of fair value**

Fair values are approximate amounts at which financial instruments could be exchanged between willing parties based on current markets for instruments with similar characteristics, such as risk, principal and remaining maturities. Fair values are estimates using valuation methods that are significantly affected by management's assumptions used concerning, for example, the amount and timing of estimated future cash flows and discount rates that reflect varying degrees of risk. Therefore, due to the use of judgement and future-oriented information, aggregate fair value amounts should not be interpreted as being realizable in an immediate settlement of the instruments.

**c) Impairment of financial assets**

At the end of each reporting period, the Corporation applies a three-stage impairment approach to measure the expected credit loss (ECL) on all financial assets measured at amortized cost. The ECL model is forward looking, and measurement of ECLs at each reporting period reflects reasonable and supportable information about past events, current conditions, and forecasts of future events and economic conditions.

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**3. Summary of significant accounting policies (continued)**

**c) Impairment of financial assets (continued)**

**Determining the stage**

The ECL three-stage impairment approach is based on the change in the credit quality of financial assets since initial recognition. If, at the reporting date, the credit risk of non-impaired financial instruments has not increased significantly since initial recognition, these financial instruments are classified as Stage 1, and an allowance for credit losses that is measured, at each reporting date, at an amount equal to 12-month ECLs is recorded. When there is a significant increase in credit risk since initial recognition, these non-impaired assets are migrated to Stage 2, and an allowance for ECLs that is measured, at each reporting date, at an amount equal to lifetime ECLs is recorded. In subsequent reporting periods, if the credit risk of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the ECL model requires reverting to Stage 1.

When one or more events that have a detrimental impact on the estimated future cash flows of a financial asset have occurred, the financial asset is considered credit-impaired and is migrated to Stage 3, and an allowance for credit losses equal to lifetime ECLs continues to be recorded or the financial asset is written off.

**Assessment of significant increase in credit risk**

In determining whether credit risk has increased significantly, the Corporation uses internal credit policies and forward-looking information to assess deterioration in credit quality of a financial asset. To assess whether the credit risk of a financial asset has increased significantly, the Corporation compares the probability of default occurring over its expected life as at the reporting date with the probability of default occurring over its expected life on the date of initial recognition and considers reasonable and supportable information indicative of a significant increase in credit risk since initial recognition. The Corporation includes relative and absolute thresholds in the definition of significant increase in credit risk and a backstop of 30 days past due. All financial assets with contractual cash flows that are 30 days past due are migrated to Stage 2 even if other metrics do not indicate that a significant increase in credit risk has occurred. The assessment of a significant increase in credit risk requires significant judgment.

**Measurement of expected credit losses**

ECLs are measured as the probability-weighted present value of all expected cash shortfalls over the remaining expected life of the financial instrument, and reasonable and supportable information about past events, current conditions and forecasts of future events and economic conditions is considered. The estimation and application of forward-looking information requires significant judgment. The cash shortfall is the difference between all contractual cash flows owed to the Corporation and all the cash flows that the Corporation expects to receive.

## SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2020

#### 3. Summary of significant accounting policies (continued)

##### c) Impairment of financial assets (continued)

###### Measurement of expected credit losses (continued)

The measurement of ECLs is primarily based on the product of the financial asset's probability of default, loss given default and exposure at default. Forward-looking macroeconomic factors are incorporated into the risk parameters. The estimate of expected credit losses reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes. The Corporation incorporates three forward-looking macroeconomic scenarios in its ECL calculation process: a base scenario, an upside scenario and a downside scenario. Probability weights are attributed to each scenario. The scenarios and probability weights are reassessed quarterly and are subject to management review.

The Corporation applies experienced credit judgment to adjust the modeled ECL results when it becomes evident that known or expected risk factors and information were not considered in the credit risk evaluation and modeling process. ECLs for all financial assets are recognized in the provision for credit losses in the Statement of Comprehensive Income (Loss). Loans receivable are presented net of the related allowance for credit losses on the Statement of Financial Position.

###### Definition of default

The definition of default used by the Corporation to measure ECLs and transfer financial instruments between stages is consistent with the definition of default used for internal credit risk management purposes. The Corporation considers a financial asset to be credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred or when contractual payments are 90 days past due.

###### Write-offs

A financial asset and its related allowance for credit losses are normally written off in whole or in part when the Corporation considers the probability of recovery to be non-existent and when all guarantees and other remedies available have been exhausted or if the borrower is bankrupt and balances are not likely to be recovered.

##### d) Collateral

Any collateral assets acquired as security for troubled loans are recorded at fair value less costs of disposition. The fair value of collateral is based on appraised market values for similar properties in the community in which the collateral is located. Any excess of the carrying value of the loan over the recorded fair value of the assets acquired is recognized by a charge to the provision for loan losses.

## SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2020

#### 3. Summary of significant accounting policies (continued)

##### e) Finance income and expenses

Finance income is recognized on the Statement of Comprehensive Income (Loss) on an accrual basis and consists of interest income from cash and investments, interest income and credit facility fees from loans receivable, and premiums on debt obligations. For loans receivable, the interest income is calculated on the gross carrying amount for financial assets in Stages 1 and 2 and on the net carrying amount for financial assets in Stage 3.

Debt obligations are accreted to the repayment amounts through a charge to finance expenses on the Statement of Comprehensive Income (Loss). On the Statement of Cash Flows, interest received is classified as an operating activity.

##### f) Grant revenue

The Corporation received financial assistance from CIC pursuant to Order in Council 102/2019. Grants from CIC are recorded as revenue when received.

#### 4. Cash

Cash has an effective interest rate of 0.5 per cent (2019 – 2.4 per cent).

#### 5. Loans receivable and allowance for credit losses

##### a) Loans receivable

The Corporation has loans receivable from various builders and developers that are used to construct housing units for subsequent sale to eligible parties. Principal is repayable on demand. In the absence of a demand for principal repayment, principal is repayable upon the sale of individual units and no later than loan maturity which is typically eighteen to twenty-four months from the date of the initial advance of the loan. Accrued interest is receivable on demand. In the absence of such demand, interest is receivable monthly.

Interest is subject to the following terms:

- At a fixed rate of 4.0 per cent calculated daily and receivable monthly in arrears during construction;
- In the event of default, the borrower pays interest at a fixed rate of 4.0 per cent with interest on overdue interest at the same rate, compounded monthly;
- Upon demand being made, interest is receivable both before and after maturity or default at the Bank of Canada prime rate plus 5.0 per cent with interest on overdue interest at the same rate, compounded monthly.

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**5. Loans receivable and allowance for credit losses** (continued)

**a) Loans receivable** (continued)

The Corporation's loans receivable are as follows (thousands of dollars):

	<b>2020</b>	2019
Gross carrying amount	\$ <b>14,033</b>	\$ 28,520
Allowance for credit losses	<u>(12,180)</u>	<u>(12,351)</u>
Net carrying amount	<u>\$ <b>1,853</b></u>	<u>\$ 16,169</u>

A loan is considered past due when a counterparty has not made a payment by the contractual due date. This may include loans past due as a result of administrative processes, such as loans on which payments are restrained pending payout due to sale or refinancing. Past due loans arising from administrative processes are not representative of the borrower's ability to meet their payment obligations. At March 31, 2020, the gross carrying value of loans that are contractually past due but not classified as impaired is \$nil (2019 - \$2.7 million) and the gross carrying amount of impaired loans is \$14 million (2019 - \$19.2 million).

The following table presents the gross carrying amounts of loans as at March 31, 2020 according to ECL impairment stage (thousands of dollars):

	<b>2020</b>	2019
Non-impaired loans		
Stage 2	\$ -	\$ 9,311
Impaired loans		
Stage 3	<u>14,033</u>	<u>19,209</u>
	<u>\$ <b>14,033</b></u>	<u>\$ 28,520</u>

**b) Allowance for credit losses**

The allowance for credit losses recognized in the year is impacted by a variety of factors, as described below:

- Transfer between stages, which are presumed to occur before any corresponding remeasurement of the allowance.
- Maturities, which reflect the allowance related to assets repaid during the year without a credit loss being incurred.
- Remeasurements, which comprise the impact of changes in model inputs or assumptions, including changes in forward-looking macroeconomic conditions; partial repayments and additional draws on existing facilities; changes in the measurement following a transfer between stages; and unwinding of the time value discount due to the passage of time.
- During the year ended March 31, 2020, there were no significant changes to the models used to estimate expected credit losses.

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**5. Loans receivable and allowance for credit losses (continued)**

**b) Allowance for credit losses (continued)**

The following table reconciles the opening and closing allowance for credit losses for the year ended March 31, 2020 (thousands of dollars):

	<b>Performing Stage 2</b>	<b>Impaired Stage 3</b>	<b>Total</b>

## SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2020

#### 5. Loans receivable and allowance for credit losses (continued)

##### b) Allowance for credit losses (continued)

###### Key inputs and assumptions

The expected credit loss calculations are outputs of models with several assumptions regarding the choice of variable inputs. The key drivers of changes in expected credit losses include the following:

- Changes in the credit quality of the borrower or instrument, reflected in changes in risk evaluations;
- Changes in macroeconomic scenarios and the probability weights assigned to each scenario; and
- Migration between stages, which can be triggered by changes to any of the above inputs.

#### 6. Debt obligations

Pursuant to Order in Council 590/2010, the Corporation is authorized to:

- a) Borrow, and have outstanding at any time, a maximum aggregate principal sum of \$230.0 million from the IIP with interest and principal payable in a manner determined by the Corporation;
- b) Provide, and have outstanding at any time, a maximum aggregate principal sum of \$230.0 million in loans, indemnities, or financial assistance utilizing the funds received under the IIP to any business organization under terms and conditions acceptable to the Corporation, and with interest and principal payable in a manner determined by the Corporation.

The Corporation incurs debt obligations from funds received under the IIP in accordance with the terms and conditions set out in an agreement between the federal Minister of Immigration, Refugees and Citizenship and the Corporation. The agreement states that the federal Minister, as agent of the Corporation, receives funds from immigrant investors and transfers Saskatchewan's share of the funds (the Provincial Allocation) to the Corporation. The Corporation will repay each Provincial Allocation received without interest five years from the date that the funds were received, along with a commission paid to intermediaries for introducing new immigrant investors under the IIP.

The commission rate is either 5 per cent or 7 per cent and is determined by the size of the immigrant investment received by the federal Minister.

Funds are received through the IIP monthly, net of commissions, with the amount dependent on the Provincial Allocation. Funds received carry an effective interest rate of 1.53 per cent (2019 - 1.84 per cent). On the date funds are received, the implicit interest rate differs from the effective interest rate resulting in the Corporation recording a premium. The premium is unwound over the five-year term through an increase in interest expense. At March 31, 2020, unamortized premiums were \$18 thousand (2019 - \$55 thousand).

**SASKATCHEWAN IMMIGRANT INVESTOR FUND INC.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**6. Debt obligations** (continued)

Changes in the debt obligations are as follows (thousands of dollars):

	<b>2020</b>	2019
Opening balance	\$ 24,366	\$ 93,348
Changes from financing cash flows:

(thousands of dollars)

	<b>2020</b>	<b>2019</b>
Interest income from cash and investments	\$ 14	\$ 543
Interest income from loans	191	1,338
Interest income – unwinding of discount on impaired loans	60	47
Credit facility fees	-	13
Premiums on debt obligations	<u>2</u>	<u>-</u>
Finance income	<u>267</u>	<u>1,941</u>
Interest expense on debt obligations	<u>(150)</u>	<u>(1,097)</u>
Finance expenses	<u>(150)</u>	<u>(1,097)</u>
Net finance income	<u>\$ 117</u>	<u>\$ 844</u>

**9. Management fees**

Under the terms of a management services agreement with the Corporation, Westcap Mgt. Ltd. provides general management and administration of the business and affairs of the Corporation for an annual management fee equal to 2 per cent of the current loans balance (excluding uncollectible amounts), calculated and payable monthly in arrears over the term of the management services agreement which expires November 30, 2020. At March 31, 2020, \$500 thousand (2019 - \$621 thousand) is payable to Westcap Mgt. Ltd. and is included in trade and other payables.

**10. Related party transactions**

Included in these financial statements are transactions with various Saskatchewan Crown corporations, ministries, agencies, boards and commissions related to the Corporation by virtue of common control by the Government of Saskatchewan and non-Crown corporations and enterprises subject to joint control and significant influence by the Government of Saskatchewan (collectively referred to as “related parties”). The Corporation has elected to take a partial exemption under IAS 24, *Related Party Disclosures* which allows government related entities to limit the extent of disclosures about related party transactions with government or other government related entities.

These transactions are in the normal course of operations and are recorded at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

CIC provides management and governance services to the Corporation without charge.

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**11. Fair value of financial instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair values are estimates using present value and other valuation techniques, which are significantly affected by the assumptions used concerning the amount and timing of estimated future cash flows and discount rates that reflect varying degrees of risk. Therefore, due to the use of judgment and future-oriented information, aggregate fair value amounts should not be interpreted as being realizable in an immediate settlement of the instruments.

All financial instruments are measured on the Statement of Financial Position at amortized cost, except for cash which is measured at FVTPL.

The carrying amount and fair value of financial instruments is as follows (thousands of dollars):

	<b>2020</b>		<b>2019</b>	
	<b>Carrying amount</b>	<b>Fair value</b>	<b>Carrying amount</b>	<b>Fair value</b>
<u>Financial assets</u>				
Cash	\$ 10	\$ 10	\$ 5	\$ 5
Interest receivable	10	10	93	93
Loans receivable	1,853	1,823	16,169	16,097
<u>Financial liabilities</u>				
Trade and other payables	526	526	647	647
Debt obligations	2,992	2,993	24,366	24,315

The Corporation has classified the fair value of its financial instruments using the following hierarchy based on the nature of inputs used in the valuation:

- Level 1**           Where quoted prices are readily available from an active market.
- Level 2**           Valuation model not using quoted prices, but still predominantly observable market inputs such as market interest rates.
- Level 3**           Fair values determined based on inputs that are not based on observable market data.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2020

#### 11. Fair value of financial instruments (continued)

The Corporation has made the following classifications:

- Cash is classified as level 1.
- Loans receivable are classified as level 3. Fair value is calculated by discounting the value of payments due at prime plus a risk premium specific to the developer over the remaining term of the loan. Fair value at March 31, 2020 is \$1.9 million (2019 - \$16.1 million).
- Debt obligations are classified as level 2. Fair value is calculated by discounting the value of payments due at interest rates for Government of Saskatchewan bonds with similar maturity dates. Fair value at March 31, 2020 is \$3 million (2019 - \$24.3 million).
- Interest receivable and trade and other payables have not been classified in the fair value hierarchy given that carrying value approximates fair value due to immediate or short-term maturity.

#### 12. Financial risk management

##### Interest rate risk

Interest rate price risk reflects the risk that the Corporation's earnings will fluctuate due to changes in interest rates. The Corporation's cash and loans receivable are at floating rates and will adjust to fluctuations in the interest rate environment. The Corporation does not believe that the impact of fluctuations in interest rates on interest income from cash or loans receivable will be significant and therefore has not provided a sensitivity analysis of the impact on net earnings.

The Corporation is not exposed to interest rate risk on the debt obligations given that interest rates on those borrowings are fixed. A sensitivity analysis of the impact of changes in interest rates on net earnings has therefore not been provided.

##### Credit risk

Credit risk is the risk that a counterparty will fail to perform its obligations. The Corporation's maximum credit risk exposure is equal to the carrying value of cash, interest receivable and loans receivable.

The credit risk associated with cash is considered minimal since the amounts are being held by chartered banks, and by credit unions whose deposits are guaranteed by Credit Union Deposit Guarantee Corporation.

Concentration of credit risk relates to groups of counterparties that are engaged in similar activities, are in the same geographic area or have comparable economic characteristics that cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Corporation has material concentrations of credit risk on its loans receivable, which are due from builders and developers located in Saskatchewan and therefore could be similarly impacted by changes in the Saskatchewan economy. However, credit risk is mitigated through the Corporation holding a first charge mortgage security interest in the units constructed and the land upon which the units are constructed.

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**12. Financial risk management** (continued)

**Liquidity risk**

Liquidity risk is the risk that the Corporation is unable to meet its financial commitments as they become due. As a subsidiary of CIC, the Corporation has access to capital markets through the Saskatchewan Ministry of Finance. The Saskatchewan Ministry of Finance also guarantees amounts due under the debt obligations.

The following summarizes the contractual maturities of the Corporation's financial liabilities at March 31, 2020 (thousands of dollars):

	Carrying Amount	Contractual Cash Flows				
		Total	0-6 Months	7-12 Months	1-2 Years	3-5 Years
Debt obligations	\$ 2,992	\$ 3,047	\$ 821	\$ 1,209	\$ 515	\$ 502
Trade and other payables	<u>526</u>	<u>526</u>	<u>526</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>\$ 3,518</u>	<u>\$ 3,573</u>	<u>\$ 1,347</u>	<u>\$ 1,209</u>	<u>\$ 515</u>	<u>\$ 502</u>

The following summarizes the contractual maturities of the Corporation's financial liabilities at March 31, 2019 (thousands of dollars):

	Carrying Amount	Contractual Cash Flows				
		Total	0-6 Months	7-12 Months	1-2 Years	3-5 Years
Debt obligations	\$ 24,366	\$ 24,563	\$ 18,949	\$ 2,641	\$ 2,030	\$ 943
Trade and other payables	<u>647</u>	<u>647</u>	<u>647</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>\$ 25,013</u>	<u>\$ 25,210</u>	<u>\$ 19,596</u>	<u>\$ 2,641</u>	<u>\$ 2,030</u>	<u>\$ 943</u>

**13. Capital management**

The Corporation's objective when managing capital is to ensure adequate capital to support its mandate to deliver the Government of Saskatchewan's Headstart on a Home program while effectively monitoring the legal limitations disclosed in Note 6 and repayment obligations to the Government of Canada. The Corporation has complied with requirements of the IIP and the legal limitations described in Note 6.

The Corporation's capital structure consists entirely of amounts received under the IIP. Debt obligations under the IIP are guaranteed by the Saskatchewan Ministry of Finance. Pursuant to Order in Council 102/2019, CIC provided financial assistance of \$7 million (2019 - \$1.7 million) to the Corporation in the year ended March 31, 2020.

The Corporation made no changes in its approach to capital management during the period.

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2020**

**14. Subsequent event**

Since March 31, 2020, the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, have caused material disruption to businesses globally resulting in an economic slowdown. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Corporation in future periods.
